RACIAL MATTERS

In the July, 1959, issue of the "Thunderbolt", self-described as the "official racial national organ of the National States Rights Party", [redacted] was listed as [redacted] of the National States Rights Party.

Photographs furnished by this anonymous source are maintained in Chicago file 105-3527-1B1.

This source furnished photographic copies of a three-page report which was typed on letterhead stationary of the M & N Associates, Box 1785 - Chicago 90, Illinois, which letterhead stationary contained a caption of Political Engineering and contained the names of E. MULLINS and M. NELSON. The report reads as follows:

"THE MULLINS REPORT

"(Due to public alarm over the Gaither Report, which admits that the United States is rapidly becoming a second-class power, but dares not admit why that is inevitable, M&N Associates has decided to release the confidential Mullins Report, prepared in August, 1957 for a group of American industrialists. We issue this report as a public service by an impartial research organization. It has already become history.)

"BY 1980, THE UNITED STATES WILL OCCUPY THE SAME POSITION IN INTERNATIONAL AFFAIRS AS DOES INDIA TODAY. The United States will then be an over-populated, impoverished country with a standard of living 50 per cent lower than its 1957 level.

"Consequently, there is no need, and little possibility, of Russia waging war against the United States. The rapid wane of the United States as a global power will enable Russia to make the American continents into Communist satellites by 1980, if she so chooses, but this prospect is unlikely. From geopolitical considerations, the continents of North and South America will be of little practical use to Russia. Her European and Asian policies will remain paramount to her national security, but the American continents will be of less geopolitical significance than Africa.

"Because of this prospect, the Rockefeller Report and other government demands for increased 'defense' spending may be properly evaluated as last-gasp attempts to shore up an artificial and doomed prosperity.

"How did it happen that the United States, which in 1945 stood unchallenged as the supreme world power, could decline so rapidly? To understand this, a brief review of the nation's history is necessary. The country was settled by bold, energetic North Europeans who were willing to risk their lives in a wilderness in order to own their own homes and land. Cheap labor was needed, but the Indians refused to become menials, so they were killed or put on reservations. The New Englanders imported negroes, but they proved to be less productive than the cost of their keep, so they were sold to Southern plantation owners, where the climate was more suitable and their owners less demanding. Even so, their importation was soon discontinued as impractical.

"Meanwhile, the original North European settlers prospered and increased. With ample space and plenty of natural resources, they soon developed into the most highly skilled and productive people the world has ever known. New inventions poured from them, and they enjoyed the greatest prosperity in the history of mankind.

"Successive waves of cheap labor came from Europe. A substantial wave from Ireland produced many desirable citizens, but after 1860 little further immigration came from Northern Europe. Most of it was from Central and South Europe, with some Asiatics. Side by side with the North European settlers lived the burgeoning families of the darker citizens. Limited in number in their own lands because of their lower productivity, they reproduced in much greater numbers here because of the higher productivity of their hosts.

"Despite the fact that these darker peoples enjoyed a higher standard of living here, thanks to the superior technology of the North Europeans, they felt no gratitude. Instead, they were consumed by hatred and envy of the North Europeans, many of whom had amassed large fortunes and lived like princes. By 1900, the darker American citizens had formed a voting bloc to combat the political leadership of the North Europeans. Already a deep racial schism had formed which doomed the young republic at the very peak of its promise. The North Europeans soon concentrated their strength in the Republican Party, while the darker citizens became Democrats, a party which also represented the white Southerners as a result of the War Between the States. This strange alliance achieved its first great political victory in 1912 with the election of Woodrow Wilson, a misguided idealist who hailed the Russian Communist Revolution of 1916 as a 'victory for democracy over the forces of despotism'. Wilson set the nation on a suicidal foreign policy caused by the racial schism of its people. This policy aimed to end all racial injustice, atone for the sins of British imperialism, reprimand French imperialism, stop German imperialism and set up a world wide protectorate for the colored peoples.

"The North European Americans had no idea what this policy intended, and were too busy and prosperous to care. The nation gained in wealth and power by entering the First World War. A few years later the Crash of 1929 wiped out the fortunes and property of more than half of the North European Americans. The stage was set for the Roosevelt regime, which was to set up the rule of the darker citizens over the impoverished and dispirited white Americans, a rule carried on by the Truman and Eisenhower directorates.

"Our entry into the Second World War was intended to stop 'racist' Germany, as though every group in the world was not 'racist' and interested in its self-aggrandizement. In 1945, a victorious United States reaffirmed its role as the protector of the colored world. But Soviet Russia also claimed to be the protector of the colored world, and pointed out that white Americans refused to intermarry with the darker citizens. Most white Americans maintained homogenous communities, schools, clubs and places of worship, just as did all other groups in the United States. However, the heirs of the Roosevelt regime now ruled it illegal for white Americans to

CG 105-1152

separate themselves, although all other groups were allowed to do so without hindrance by the government. Now the government began to enforce a policy of racial amalgamation, although no other nation in the world, especially Soviet Russia, followed such a policy. Largely through the Supreme Court, an instrument operating upon powers usurped from Congress, white Americans were stripped of their private institutions and forced into racially integrated schools and living quarters. Intermarriage was inevitable, particularly because of the flood of 'integration' propaganda.

"All religious groups in the United States declared it a religious duty to racially amalgamate, although not one of their leaders could cite a single tenet of dogma which required this. White children were taught in the schools and churches that it was their duty to intermarry with the darker citizens, and the press, radio, television and movies pressed the mongrelization campaign. The government continued legal action against the last privacies of white citizens, all though no action was taken against Negro, Jewish or other group institutions.

"Yet at the very moment that white Americans were being forced to racially amalgamate, their technical skills were in greater demand than ever before! Guided missiles were being developed by imported German scientists because impoverished white Americans were working as manual laborers, unable to educate their children in technical schools. But the shortage of engineers was laid to the fact that we had not availed ourselves of our fine negro talents; a people who squatted in dusty jungle kraals for 20,000 years without the least improvement in their condition was now declared the rightful heirs of the American technology! Our universities were flooded with colored students, their tuition paid by government grants and 'racist' foundations for colored only. The white Americans who could have salvaged our declining technology continued as manual laborers.

"All of this was inevitable. The American of North European descent, although realizing that he possessed superior skills, bore no ill will towards the darker citizens. But the colored man could not see a white man without hating him, for the white face reminded the colored man that he was dark. Either the colored man must become lighter or the white man

CG 105-1152

darker. No other remedy would pacify him. Anyone who has seen the advertisements for 'skin whiteners' in the negro press knows how basic this drive is among the dark people. The pivotal negro vote caused the white man to be legislated out of existence in the nation which he had created, and the Supreme Court declared, 'All Americans are negroes!'

"M&N Associates makes no comment on the justice or injustice of this development. We only evaluate the facts. The inevitable result was that by destroying the white American's desire to preserve himself as a development of Gold's Holy Will, and forcing him to intermarry with the colored, the nation was condemned to go the way of other great worldpowers, India, Egypt, Greece and Rome, whose white leadership vanished in intermarriage with darker peoples.

"The passing of a great nation from the stage of world history is neither an occasion for sadness or rejoicing. It is simply an historical event. The process was bound to be much more rapid in the United States because of the pace of modern life and the tremendous pressure behind the dark peoples' will to intermarry with the whites. At the same time, Soviet Russia's white managerial elite, showing no intention of intermarrying with darker peoples, continued to specialize. Selective breeding became a state policy, and thus Russia secured the future for herself, for the future was long since known to belong to that nation which could produce the highest type of technological elite.

At this late stage, M&N Associates was asked to ascertain whether the colored citizens could be restrained in their aggression against white Americans. The answer is no. They will never be content to enjoy the higher standard of living here, because it cannot compensate for their constant reminders to themselves that they are inferiors. Once again, bolder whites will emigrate, this time to Australia and New Zealand. At best, the United States may become a sort of British Guiana, a colored colony of white Canada, whose dollar is already worth more than ours!

"It is too late for the North European stock, a minority of 50,000,000 to reassert leadership over 120,000,000 mixed bloods. The colored cannot be appealed to on patriotic grounds, for they can never know nation-feeling, but only have

CG 105-1152

race. Only a people capable of defending their land can know patriotism. Typical was A. Philip Randolph's advice to negroes^{negroes} to refuse to serve in the U.S. Army.

"M&N Associates does not believe that a White movement can gain power. There is no longer a White market in the U.S. either commercially or politically. At best, the whites might secede again as a white Southern republic, leaving the mulatto North to go its own way, but the result would be the same, the disappearance of the United States as a world power. Our mulatto grandchildren will placidly watch the decay of the nation they inherited, while the rest of the world, including Soviet Russia, pays no more attention to us than is presently paid to the mouthings of the mulatto inhabitants of India. The world is realistic."

ACTIVITIES ON THE PART
OF [redacted]

National Renaissance
Party (NRP)

On April 21, 1958, CG T-1 described the NRP as an anti-semitic, anti-Negro, neo-fascist organization with activities generally confined to the New York City area. CG T-1 stated that it was founded in 1949 by JAMES MADOLE, who

is in complete control of the Party. The "Party's" main function is the distribution of the "National Renaissance Bulletin" on a monthly basis and distribution of pro-Arab literature, obtained from official Arab establishments in New York City. The Un-American Activities Committee of the United States House of Representatives in a preliminary report dated December 17, 1954, stated "National Renaissance Party activities and propaganda are clearly subversive and un-American."

The "National Renaissance Bulletin", dated June, 1953, under the heading "National Renaissance Party Grows in Power" by JAMES H. MADOLE, reflects that the fully uniformed corps in New York City [redacted]

Another speaker spoke and outlined the procedure for setting up support for the UWP. It was also learned by CG T-2 that [redacted] had remained after the meeting, along with approximately 20 others, and had discussed the platform of the UWP and what organizations would be accepted for affiliation. On September 23, 1959, CG T-4 advised that [redacted] was on that date in Miami, Florida, conferring with PETER CROCKFORD, State Chairman of the NSRP in Florida.

Realpolitical Institute (RI)

On December 12, 1956, CG T-5 advised the RI, Post Office Box 1785, Chicago 90, Illinois, was started by MAYNARD NELSEN in late 1954 in Chicago, Illinois, for the purpose of creating a new political party. This organization is anti-Communist, anti-Semitic and favors the white race. NELSEN has been in contact with FREDERICK WEISS in the New York City area, who has in the past promoted neo-Nazi activities.

This organization, which is primarily a one man organization, has failed to "get off the ground" and does not attract interest or a following. NELSEN's main activities in this organization have been the occasional circularizing of printed, mimeographed "Hate" sheets, primarily in the Chicago area.

On January 16, 1957, [redacted] St. Louis, Missouri, furnished to SA CARL R. O'CONNOR a copy of a letter dated January 1, 1957, which was printed on RI stationery. This letter reflects

b6
b7C

CG 105-4630

that it is from the Administrative Staff of the above organization to white American citizens regarding disloyal Jewish consensus and the subject is white man survival. The body of this letter reflects:

"The REALPOLITICAL INSTITUTE is dedicated to the racial survival of the white man, both here in the United States of North America and throughout the world.

At the bottom of this letter there appears a slogan which states "WHITE MAN AWAKE - THE HOUR IS LATE".

On June 6, 1956, CG T-6 furnished a copy of a letter dated June 2, 1956, which was signed by [redacted]

[redacted] This letter contained a letterhead of the RI. Post Office Box 1785, Chicago, Illinois [redacted]

[redacted] This letter advised of [redacted] then current address, [redacted] Chicago 14, Illinois, and stated "Please Be Informed of My New Address. I am ready to assist in the killing of Jews any time so called upon to serve my country. I believe I am qualified by my background to be of invaluable assistance to this mighty task." This letter, it was learned, was sent by [redacted] to the local draft board at New York City.

On July 17, 1956, CG T-1 advised that [redacted] was, at that time, residing in Chicago and working with MAYNARD NELSEN, leader of the RI. He stated that [redacted] recently mailed out invitations stating that the "Chicago Committee for the Reception of Nationalists Observers at the Democratic National Convention, August, 1956," cordially extends this invitation to visit its service center in the East Room of the Atlantic Hotel at 1316 Clark Street, Chicago, Illinois, on the 12th through the 15th of August. CG T-1 advised that he believes [redacted] NELSEN were endeavoring to obtain publicity through the above-mentioned invitations and that their aim is to create confusion and embarrassment at either or both of the major political conventions.

On October 23, 1959, CG T-7 advised that [redacted] had, in his possession, a document entitled, "Perspectus for the Creation of a Realpolitical Institute Publication." This document indicates that the proposed name for this publication was to be the "Frontier" and [redacted]

[redacted] This document listed as the editorial formula for the publication "to stimulate presentation for the advanced, revolutionary outlook on political, social, economic and racial issues."

[redacted] was in attendance at this convention. Information from this source should be carefully paraphrased if utilized in the future in order to protect the identity of source. Information was received from source on 3/19/60. b7D

The convention, itself, was lacking in organization, and often several persons were talking at the same time, making it difficult for source to hear and report all comments made. Speakers were in some instances introduced from the floor rather than from the speaker's platform, and source was unable to obtain names of all speakers.

Enclosed herewith is a summary and running account of the convention as reported by [redacted]. The account is not verbatim, except for the remarks made by J. B. STONER which were uncomplimentary to the FBI and Director J. EDGAR HOOVER.

The original report of information furnished by this source is located in [redacted]. This informant source will not be available for testimony in the future.

NATIONAL STATES RIGHTS PARTY CONVENTION
MARCH 19, 1960
MIDWAY LODGE, MIAMISBURG, OHIO

As the convention convened, several persons, both men and women, appeared to be talking at the same time. One unidentified male was overheard to make a remark regarding the newspaper reporters, and another male voice was overheard from this hubbub of conversation to make a comment regarding the changing of the meeting place for the convention. Neither of these comments were clearly understood.

The convention, itself, was called to order and opened by a prayer led by an unidentified male. The person leading in the opening prayer spoke very quietly, so much so that the wording of his prayer could not be understood.

At the conclusion of the prayer, the entire group recited in unison the Pledge of Allegiance to the American Flag.

Following the Pledge of Allegiance to the American Flag by the group, an unidentified male began to speak. This person spoke in a low, quiet voice and sounded to be the voice of the same man who had opened the convention with the prayer. It was difficult to understand his remarks. He was overheard to welcome the group to Dayton, Ohio, and thereafter made reference to the publicity which the convention had received through the media of the newspaper, radio, and television. He also made reference to the efforts of DUBBS and RISNER to obtain a hall for the convention. He stated that a hall had been obtained, but only yesterday the hall had been cancelled. He attributed the cancellation of the hall to the lies which were published in the newspaper and over the radio regarding the convention.

This speaker also commented that the platform of the National States Rights Party, including the Constitutional rights of the citizens of America, are contrary to the policies and beliefs of those persons presently in power in the United States Government. He said that those in power fear the opposition to their own policies and beliefs. This speaker then continued by saying that he came into this controversy with Communism when he was 22 years of age. He said that he

had been familiar with the Communist intentions since back in the early 1920's. He continued that the other day he ran into a 1931 publication, which set out at that time the views and objectives of the Communist Party. He said that the communists even then intended to undermine our American way of life and interpose their communist form of government on the people of the United States. He said that back in the 1930's very few people believed the communists or believed that what they said could come true in this country. He said, however, that we have realized that this could happen and has happened "right now". He advocated that the greatest offense to communism was state government, according to the Constitution, to prevent communism in our Federal Government. He explained that if we paid more attention to our state government the communists would have to deal with 48 governments rather than to infiltrate only one government. He urged that the people of the United States should pay more attention to their Constitution and abide by their own state government and run their own state business in the manner in which they desired their business to be run. Following this comment, there was a loud applause by those in attendance.

This speaker then made reference to the problems relating to integration, mental health, and all the other social-type legislations which are being forced on the people by the Federal Government. He said that such programs will never become effective and that they will be exposed by what they actually mean themselves. He said that such legislation will never become effective until such time as the state governments recognize the rights of the state's citizens and the Federal Governments recognize the rights of the citizens also. He said that the man and woman of America is a citizen of two governments and the man and woman of America is the master of both of those governments. He said the communists are working feverishly to eliminate the state government due to the interference that it causes. He said that the communists have objection to the city governments; they have objection to the county governments; they have objection to the state governments.

He repeated that mental health, urban renewal, and other things were all a part of a program which opposed state governments.

This speaker then began to criticize news media. He said that regardless of what you tell the press, how clearly you explain it to them, they still twist your words and turn them around until they are eventually reported with the exact opposite meaning of what you have actually said. He stated that their methods have become so bad that today, even in our schools, a school child does not know the difference "between George Washington and Mickey Mouse." He also commented that the school child of today doesn't even know how to spell a four letter word.

He then referred again to communism, stating that one third of the earth's surface and one half of the world's population is communist dominated. He then asked the question why should the United States fall victim to communism. He then said that the Federal Government has departed just as far as they can possibly legally depart from constitutional government before the whole house collapses. He said our government does not have to collapse. He then said that he wanted to bring to the attention of those present three things which have happened during his lifetime which showed that the mercy of God has been shown to the United States of America. He then stated that during his time WOODROW WILSON had been elected President. He described him as an intelligent and brilliant man, a man who had achieved fame in his own right. He said that there came a time that WILSON would not tolerate what was going on in his state department. He said that the communist tried to capitalize on Mr. WILSON's position, when he tried to uphold the Constitution. He said that God intervened and took Mr. WILSON out of this position. He said that at the close of war, Mr. WILSON and Mr. HUGHES proposed a peace and a disarmament for the world. He said that this same Mr. HUGHES, whom he referred to, later became Chief Justice, and he said that Mr. HUGHES said that the Constitution is what the Supreme Court says it is. The speaker then asked those in attendance,

"Where in the Constitution does it give the Supreme Court the right to interpret it?" He said that the Supreme Court has been, for years, handing down decisions, not saying what is right or wrong according to the Law, but merely handing down decisions saying what they think the Constitution means. He said that there is no place in the Constitution which gives the Supreme Court the right to do what they are doing. He then continued that the second intervention by God came in the program of the Reformed (Unintelligible). He said that once again a big conference was called in Washington, and once again Mr. HUGHES laid down his pride for his program. He said, however, once again God stepped in and removed WARREN HARDING. He then mentioned that after this peace conference, there was a stream of Yankees going down south of the Mason-Dixon Line. He said that once again God stepped in to save this country from its own fear and its own stupidity. He continued by saying that since they had failed to accomplish what they had set out to accomplish under the administration of Mr. WILSON, they started again under Mr. ROOSEVELT. He said that those of us who lived through that era know that he was the one that began the preaching of hatred and it was he who started a program of socialistic legislation which is continued from that hour until this. He said that had his program continued our country would have collapsed long before this, but once again God stepped in and took Mr. ROOSEVELT out of the position. He summarized that three times during his lifetime God had intervened and tried to save this country. He said he wondered how many times God would have to save this country before the citizens of this country realize that they were put here to enjoy their freedom, protect their freedom, and protect their states, to enjoy their privileges guaranteed them by the Constitution of the United States. At the conclusion of these remarks, there was a loud applause by those in attendance.

Following the speech of this first speaker, another unidentified male began speaking. He was overheard to make reference to Reverend JOHNSON. He then continued by first stating that he was glad to be in this great state of Ohio.

This second unidentified speaker spoke with a southern accent, mumbled many of his words, and was quite difficult to understand. In his opening comments he made reference to the State of Georgia, he mentioned the name of WILL ROGERS, and made mention of gaining independence. His opening comments were not too coherent, as he stammered and stuttered as he spoke. He said that there is a destruction of the will of the majority being brought about by the high command of the Republican and Democratic Parties. He continued mumbling and stuttering about minority and majority and made mention of the Supreme Court. He mentioned that there was more antagonism today and more _____ (he had several comments to make regarding his pronunciation of the unintelligible word which he apparently was unable to pronounce himself). He said that he hoped that the National States Rights Party will correct the situation. He said the old party will be succeeded by a party that has the interest of the majority at heart. He said that the most damaging thing which has occurred against the states has come from the Supreme Court. He said that the Supreme Court has consistently been an advocate of the majority rather than the minority. He said that the courts have controlled the school boards in every part of the land. He said that in one instance the court had been responsible for the president controlling the school at the point of bayonets. He also mentioned that the courts are "against our party". He said that at the rate we are going he fully believes that in the future books will be published without a thing in them. He mentioned also that the "New York Times" is in favor of forced integration. He said that he was not personally afraid of the press. He also mentioned that today the Southland is a place where both races are afraid. He said it has become a land of dynamited schools and a land where the KKK (unintelligible). He said that we have a government of and for the minority. He also made reference to Little Rock in his closing comments and at the conclusion of his talk he received a loud applause.

Following the comments of the second unidentified speaker, a male voice announced that if Dr. FIELDS would preside over this meeting he would certainly appreciate it.

DR. FIELDS

Dr. FIELDS spoke next, opening his comments by making reference to the heavy snows which had occurred in the South and explaining how bad the snow was in Louisville, Kentucky. He next said that he would like to have a record of all those members in attendance, and said that ARTHUR would pass around and take up the registrations. He then began by stating that it was quite important for the National States Rights Party to get on the ballot. He then mentioned that they had a hall for the convention, and when that hall was canceled they were fortunate enough to obtain this hall. He said that when this meeting is over "we will write our own press release and we will issue it to." He said that we want our press release printed word for word or we don't want it printed at all. He said that the "Journal" said they will run our press release. He said that he had been asked for a picture of "Our Sign" and said they would put it in the paper. He then said that the NAACP had been prepared to picket us at three o'clock this afternoon, but he said that since the hall had been canceled on us, they decided to picket the public library. He said that the NAACP doesn't know why they are picketing, but they are picketing. Some lady inquired from the floor if that was in Dayton, Ohio, and he said yes that was in Dayton, Ohio, where they were picketing. Dr. FIELDS began his comments by stating that he wanted to bring to those in attendance a message from a "real freedom fighter who is behind prison bars, JOHN KASPER". He then began reading the message which started out to all members of the National States Rights Party, greetings. He read KASPER's speech which started off by stating that today was a historic one, a great day, a memorable occasion of a group who had gathered together in an endeavor to dedicate themselves to the restoration of the Constitution and preservation of our laws. He said that knowledge of this convention gives "your true friend, JOHN KASPER", bounteous joy in his heart. He said that

he expected in the future total triumph in American nationalism for rights and preservation of the states and defeat of those who oppose them. His message concluded by saying may God bless and preserve each and everyone of you and was signed JOHN KASPER, Davidson County Workhouse, Nashville, Tennessee.

After the reading of KASPER's message, those in attendance again applauded loudly. Dr. FIELDS then continued by announcing that KASPER was not in a Federal institution and that anyone could write to him by just addressing it to him at the Davidson County Workhouse. He also stated that KASPER was getting along well and that the guards there were very nice to him and he commented they were having another meeting on Labor Day and that JOHN KASPER was expected there for that meeting. He stated that JOHN KASPER would be out sometime in June, and the business meeting would be held on Labor Day. He then stated that he had another message from the Citizens National Law Enforcement Commission, and that this message was provided by Mr. MILLARD C. GRUBBS. He then started reading the message which began Section 23 of the Bill of Rights of the State of Kentucky (unintelligible). He then explained that in other words the Supreme Court could not set aside or declare null and void this Bill of Rights. FIELDS continued speaking in an unintelligible manner regarding this matter. He then made reference to an article that had been written by a member of the Bar of the State of New York. He then stated that he desired to read a matter which related to the very beginning of American history and expressed the ideas of THOMAS JEFFERSON and JAMES MADISON and JOHN MARSHALL, and expressed the views of those early people who forecasted the dangers in which we now are. He said that MARSHALL, speaking in the early and celebrated case of MARBURG versus MADISON, discussed at length the Constitutional Amendments underlying this (unintelligible). He then explained that any law which is contrary to the principles of a constitution is void and the courts are bound by this statement. He said

that this principle had been founded by the courts even prior to the time that the Federal Constitution was adopted. He said that in the Federalist #33, HAMILTON observed that the framing convention expressly specified that the constitutional provision for supremacy of Federal law that this supremacy is subject to be sure that it is in keeping with the Constitution. He said that it was pointed out at the beginning that any principle contrary to the Constitution will be acts of usurpation and will be considered null and void. He said that this applies to the Congress, the court, and the president, or as applies to all combined. He said that HAMILTON further pointed out that the larger or major societies will not invade the rights and privileges of the smaller societies. He said that every citizen has not only the right but the duty to act to prevent laws which are contrary to the principles of the Constitution.

At this point a third unidentified speaker began to talk.

THIRD UNIDENTIFIED MALE SPEAKER

This speaker started off by saying that there were times when a politician had to appeal to the people, but now the people have to appeal to the politician. This speaker started off further by saying that he wanted to speak on why there was a need for their organization. He said there was a time when little white children were born to white mothers. He said that five or six years from now little white children should be born to white mothers. He said that a hundred years from now white children should still be born to white mothers. He then continued speaking in an unintelligible voice about integration and mongrelizing the races. He said that the northern people would desire that our race become a mongrelized group. He said that when our forefathers came to this country they came with their wives and their children to build a new land. He said they didn't go to South America or to Mexico, but they came to this country. He said that they brought with them civilization and they brought with them their white stock.

He said they wanted to build a free republic and one that would grow and one that would enjoy itself. He then compared the situation in South America which was completely mongrelized and said that they had never had a real republican form of government. He then asked if we were going to desert and throw away the principles of our forefathers and go for mongrelization like they have in other countries. He answered his own question by saying, I don't think so, and then asked, But what are we going to do about it? He then said that we have been sold out on all sides and at this time we can't elect anything. He said that we're different from the Negro vote, which is sought after in several states, and he named Pennsylvania, Delaware, and others among the states seeking the Negro vote. He then asked again, what can we do about it, and he answered his own question, saying we have got to get out and get our own bloc of votes. He said that we have no magnificent dreams of putting our candidate into the White House this year, but he said, "By George, I think we can gain some recognition." He said that we're getting tired of voting for the lesser of two evils. He said we're not going to sit here and say, well, does NIXON like the NAACP more than HUMPHRIES or does HUMPHRY like the NAACP more than NIXON. He said there is no salvation to our country to have to vote for somebody that will go over to Africa and put his arm around a bunch of Niggers. He said our main objective at this time is to get on the ballot. (At this point the convention was unintelligible and difficult to understand. The voice continuing to speak sounded to be the same voice of Dr. FIELDS, a previous speaker.) He then mentioned the Executive Committee of the National States Rights Party and named the National Chairman as ARTHUR COLE, NED DUPES, the National Secretary, and MAT KOEHL, our National Organizer, and he named one or two other unintelligible persons as members of the Committee. He said that the Committee has named Governor ORVILL FAUBUS as Presidential candidate and JOHN CROMLIN as Vice Presidential candidate. The speaker then mentioned the Constitution Party and said that a Mr. McGUIRE had told the speaker that he had resigned as National Chairman of the Constitution Party. McGUIRE had said that he felt the organization was good, but it would not dominate if it did not stand up for states rights and claimed that this was the party that would stop Communism and this whole integration mess. The

speaker said that McGUIRE had recommended putting CROMLIN's name on the ticket. The speaker continued by stating what difference does it make if we have to mongrelize our children by putting them with Negroe children, and we might as well give the whole country away if we have to give our children away. The speaker said that the name of our party is the States Rights Party. He said that the first States Rights Party was founded by Governor FIELDING WRIGHT and STROM THURMAN in 1948. He said we have been fighting to keep this party alive, and he said we now have the consent of Governor ORVILLE FAUBUS to present his name as our Presidential candidate. (At this point there was long and loud applause by the group.)

He then began to explain how they could obtain votes for Governor FAUBUS. He said that if he had a petition and would walk down the street of Macon, Georgia, or Raleigh, North Carolina, he would bet that he could get nine out of every ten white men to sign this petition asking for FAUBUS as President. He said they know what stand ORVILLE FAUBUS took in Little Rock. He explained that if they nominated someone not so well known as FAUBUS, they couldn't expect as much support. After a few additional comments in support of Governor ORVILLE FAUBUS as the Presidential candidate, he then mentioned that the Democratic Party, through its Democratic National Committee, has appointed a group to prepare a civil rights plank in its party platform. He said he would bet that there would be some thirty some Negroes on that Committee, and it would also include ELEANOR ROOSEVELT. He then offered remarks of criticism of ELEANOR ROOSEVELT and also of RICHARD NIXON and mentioned that both of them probably belong to the NAACP. He asked the question, wonder what other organizations they belong to, and answered the question by saying probably the Communist Party.

This speaker continued and finally offered informal nomination for Governor ORVILLE FAUBUS for Presidential candidate. He then inquired as to whether or not there were any other nominations from the floor. He also nominated Admiral JOHN CROMLIN for Vice Presidential candidate and asked if there were any other nominations from the floor for this position. He then asked if there was a motion that the

nominations be closed, which he received. He then asked if there was a second to this motion, which he also received from the floor. He then asked for all those in favor of Governor ORVILLE FAUBUS designate by saying aye, all opposed no. There were no "no" votes. He asked for a vote for Admiral JOHN CROMLIN for Vice Presidential candidate. Again there were no "no" votes.

At the conclusion of the nomination and vote, the speaking became unintelligible. It sounded as though another unidentifiable male speaker had arisen to interject a few unintelligible words. The speaker then announced that he would like for the group to hear from our National Secretary, a man who was the supporter of ORVILLE FAUBUS and who has worked hard for the National States Rights Party. He then called on the National Secretary to speak and named him as NED.

NED DUPES

NED began his speech by saying that he got a little perturbed at the beginning of this meeting today and that he was a big enough man to say what he wanted to and he intended to say it. He said he might get hurt for it, but he was going to say it. He said that when he first started supporting ORVILLE FAUBUS, he got mail from Massachusetts and then later from New York City and other places on out to the west coast. He said he received approximately a hundred or two hundred letters advocating Governor FAUBUS for President of the United States. He said, however, that he only received one letter from a southern state advocating Governor FAUBUS. He said that his first impression was that maybe Doctor FIELDS and the other members of the National States Rights Party maybe didn't feel that Governor FAUBUS was the man, but when he received so many letters advocating Governor FAUBUS, he thought that if he was the man, he was perfectly willing to go along with them. He then mentioned that they had in the audience today a lady from Little Rock who has talked to Governor ORVILLE FAUBUS on a number of times. In fact, he said he believed she had spoken to him just before she came up here. He then asked [REDACTED]

to stand up. [] received a loud round of applause. b6
She then made remarks from the floor which, for the most part, b7C
were unintelligible, but she said he told me, "Tell them I'll
do anything they want me to do." [] also received
a loud round of applause.

NED then continued speaking by saying that he had heard of this word "democracy," but he didn't know where the people got that word. He said it does not appear in the Constitution or in any document laid down by the founding fathers of this country. He said we were born a republic, and democracy does nothing but cater to the smallest kind of men. He said men like HARRY TRUMAN. He said that he knew what HARRY TRUMAN did, because he was in Kansas City. He said all he did was carry a little black bag and make collections for TOM PENDERGAST. He said he went over the entire red light district of Kansas City, and he knew that for a fact that that was what he did. He said and that's where he learned to play the piano. He said he destroyed the greatest general this country ever had, General McARTHUR. He said the man that we got up there now couldn't even make good as a buck private compared to General McARTHUR. He said that he thought that it was ridiculous for that man to call out an army to try and get Niggers to go to a white folk's school. He then asked the question, what kind of a man is that, he's no man at all, I say he's a dog. He said that he is not a Christian man. He said that he did something the other night in South America, and after he did it, he looked like he was embarrassed to death. He actually mentioned Christ. NED continued by saying that he had written the President a letter, the most insulting letter he had ever written to any man, and that if a man had written him a letter of that kind, he'd look him up if he was big as a town. He said that all the President did in answer to his letter was to send him a little literature telling him about the coming election, as though I was interested in him. He said that ALBERT GORE was another one, and asked where is he? He said that when a bill comes up in Congress, he's flying around in Europe somewhere or else he's down here making a speech at some little banquet or else he's over in a synagogue. He said that all he ever talks about is the TVA, and he said that although he, himself, is from Tennessee, he wanted everybody to know he was opposed to the TVA. He said this was

the biggest hypocrisy ever put in the State of Tennessee. He said they don't give no cheap power down there, they said they didn't. He made mention of another unintelligible person, whom he said looked like a bulldog. He said he had written a letter to him, but he said he didn't answer his letter, he said he had to take care of the party. Then he asked the question, what party? He said they don't have any Republican Party, they got a Marxist-Socialist party, but they just don't want to admit it. He said there are too many men running around the country wanting to be President today like ESTES KEFAUVER, who put on a coonskin cap and ran around trying to be President. He said he let people thoroughly understand that he didn't have any sense. He said, "What do you got today, we got a bunch of nincompoops." He then said how much longer are we going to put up with it. He said, I'm not worried about the people in Washington, I'm worried about the stupidity of the American people. He said we're the government, not a bunch of unintelligible in Washington. He said if those people in Washington had to make a living on their own, they'd starve to death. Then he said, down here in Alabama they got a fellow named MARTIN LUTHER KING, calls himself a preacher. He said if he's a preacher, I'm a clock maker, but all I can do is tell time. NED then criticized the people of Tennessee for putting JOHN KASPER in jail and then began to summarize the qualities of ORVILLE FAUBUS. He said that he's a white man and he's a Christian. He understands the United States and the Constitutional laws of the United States. He said that he understands that the states set up the government and that the government didn't set up the states. He said, I think what we ought to do is get together folks and "I'm just dumb enough to think that we can elect somebody this time." He said if enough people go to those polls and vote for the right party, we're bound to get in. He said what a time that would be--what a time that would be to see them all weeping and wailing and gnashing their teeth. He said it would be worse than the judgment day. He said they wouldn't know where to go or which way to turn around. Half of them don't know right now, and if they have to depend on their own money to get home from Washington, they won't get there. They'll be out on the highway thumbing a ride.

NED then began talking about foreign aid, and he asked the question, what is foreign aid? He answered by saying it's to build up the Rockefeller Foundation. He then criticized Scripps Howard newspaper and told those present that they didn't have to buy that newspaper. He said if you stop buying that paper for six months, I'll guarantee you they'll fold up. He said that newspapers down home don't bother him any, because he'd cut their water off long time ago. He then said it was about time for him to wind up his comments, and he wanted to tell all of them "Let's get together and get the ball rolling."

There was a loud round of applause as NED completed his talk. Following his talk, there was some unintelligible conversation and also an unintelligible announcement. The unintelligible conversation appeared to concern the Odd Fellows Hall and the NAACP. There then appeared to be some announcements regarding some publications for sale. There was mention of publication called "International News" by GERALD L. K. SMITH. There was also mention of another publication that dealt with MARX, LENIN, ENGLES, and all of the other Communist writers who explained how they got possession of other countries. The unidentified male making the announcement regarding these publications said that anyone who would read that book after laying it down would be bound to say that he was with us. He referred to the book by the caption, "The World of Hope".

The next speaker, an unidentified male, began his talk by telling a story about a battle field in the south. He said that the fighting was going pretty tough, and everybody was discouraged, but there was a brave man among the group, a general, and all of a sudden a messenger came in from the field and brought a message from a battalion commander describing the deplorable conditions and asking the general what he should do. He said that the general was a Confederate general, and he turned the message over and wrote down one word, "Fight". The speaker said that the general took the same attitude that we would have to take today when you're surrounded by people from all sides--when you're surrounded even by white people who are opposing you, there's only one thing to do, and that is to fight, and he screamed the word, fight. He said my friends,

the hour is ripe. Here in America the enemy is right at the point of taking over. He said that in 1917 the Russians, the enemy that we claim today, who didn't have one thousandth of the power then that they have now, overthrew the Russian government. He said we are practically today a defeated civilization, a defeated race, a defeated people. He said we've got to get our brains to work and our wills and our minds and our intellect and everything we've got if we intend to survive. He said this struggle is no mere political campaign, and he shouted again, "This struggle is a struggle of a race to survive." He said this matter is not only being fought out in Atlanta, Georgia, and in Montgomery, Alabama, and in Jackson, Mississippi, but this matter is being fought out in all the four corners of this great earth. He said this is not merely a political battle, but is a biological reality of a race. He said there is a deliberate premeditated conspiracy to defraud our race. He said this was the real question. He said all of those political aspects of the question are just ways of looking at it. He said that if the race does not survive, then all these other values do not amount to anything. He said what is needed today is a political crisis, and instead of preaching the ideology of mixing the races, what is needed and what must come forth in one way or another is a political movement dedicated to the idea that the white race has a right to survive like the rest and based fundamentally on that rockbed foundation of race and that we in this hall tonight are struggling and striving to be in the forefront of that movement. He said that if things continue like they're going today, the world before we are gone is going to be Communist, and he said Communism is everything it's Jewish inspiration and is under Jewish leadership and Jewish creation, and this is the enemy we fight. Integration is a part of thatism. The destruction of the rights of our states is a part of that struggle. He said they may have destroyed the states, but they haven't destroyed the power of the states just for that reason alone. He said they're out to destroy a state power so that those states can have laws permitting racial intermarriages, laws in which a white society can't exist and live, and what we need is laws that will allow white children to go to school with white children. He said the ultimate aim of Communism is to destroy the white race and, in destroying the white race, destroy

everything that the white race has created, including Christianity. He said that Christianity has only lived among white people. It's never thrived among any other race. He said that Christianity is a part of the white race, and if the white race goes down, Christianity goes down, and in defending the white race we defend Christianity. Following his comments there was another loud round of applause.

The speaker commented that he lived in Atlanta, Georgia. He said that he realized that a great deal of this fight would have to be borne by the south, but at the same time cooperation from the north would be necessary. He said that in order to do any real good, we would have to have a balance of power, and we would need those interested white people from the north in order to have a balance of power. He said the political parties would have to come to realize the value of the vote of the States Rights Party, and he said that we would then be in a position to bargain and say all right, if you want our vote, you have to talk our language. He said that these politicians who work for the Jews and the inter-racialists and the Communists, and we've got to create a political party in addition to those known as Republicans and Democrats if we intend to save our race and our civilization. He said that those people don't have the best interests of America at heart, and he referred to previous comments made by ROBERT FIELDS, who said that in the south about half of them are split right down the middle of the stump because half of them vote Republican and half of them vote Democratic. He said that each party is looking for the vote of the Negro and the Jew, and although the popular vote in the south is small compared to the north, each party needs the vote of the white people in the south, but as it stands now the south has been nailed to the cross of the crucifixion. He explained that we feel the situation greater in the south because in many places in the south the population is eighty per cent Negro. He said it's not a matter of whether or not you want to allow the Negro to vote, it's a matter of whether or not you want the Negro to elect the officers. He said that you had to decide whether you wanted the Congressmen to be all Negroes or not. He said if you wanted your mayors to be Negroes and you wanted your other

public officers to be Negroes and you wanted to live in a predominantly Negro society, then all was all right. He said that if it was just a matter of giving a small minority of Negroes the right to vote, there would be no problem involved. Nobody would object to a small minority of Negroes voting, but in many of the counties of the south, giving them the right to vote means you've got to get out of the county yourself unless you want to live under their domination. However, he said the white race just isn't willing to live under Negro domination. (Loud applause).

He said, now our party is the States Rights Party, the National States Rights Party, and as far as I'm concerned it means something. That's not just an idle (unintelligible) just to throw around, but it really means something. He stated that as far as he's concerned, it means that the state governments, each one of them, have a sovereign and Constitutional right to vote for its own rights under the Constitution. He stated that in 1956 every state in the south passed a resolution with the exception of North Carolina. He said that this resolution stated that the Supreme Court had gone beyond the authority guaranteed by the Constitution and that, therefore, the ruling of the Supreme Court was null and void, and he mentioned that these resolutions were passed in every state during 1956 and 1957. He said the legislatures in the south have already passed such a resolution, and it is now just a matter of politicians standing behind the resolution and saying they're going to uphold it. He stated it was his opinion that that was just what the south was going to do. He said it is not the part of the citizen to obey the usurpation of a Federal government or any other department, but it is the duty of the citizen to obey the law, but he said when the Supreme Court of the United States is under the domination of the Communists and admittedly are freeing Communists with no law to support their action, it is not our duty to uphold a Supreme Court that acts in this fashion. He said that if the people don't recognize the freedom that they have and aren't willing to stand up and fight for their freedom, then it's going to be taken away from them. He said this conspiracy is moving in and taking over everything. He said that they are now trying to pass laws to move Eastern

Europe and Asia and everybody else in on us, and if we're going to preserve our freedoms, we've got to fight, fight, fight, and he screamed these words, fight. He said if the GEORGE WASHINGTONs, MADISONs, and other forefathers who made this great nation of ours and who gave us the freedoms which we have were here in this hall with us tonight, he was here to tell those in attendance that they would be on "our side". For this comment, which he screamed at his audience, he received a loud round of applause. He also said that as long as GEORGE WASHINGTON and JEFFERSON DAVIS and MADISON are on our side, the rest could have KARL MARX and JOE STALIN. He said that unless we're willing to base our beliefs on a religious foundation and be willing to go out and fight for them and be killed on the street for them if necessary, then we are going to lose our freedoms to this Communist conspiracy. He said we've already lost many of our professional people to the Communists. He said he referred to the ministers and pastors, the lawyers and doctors, the engineers and architects have all, practically all, already gone over to the Communists. He said he wasn't saying that to frighten the people, because he still believes that we can win. But he said the secret to winning is that we must stand together and fight together and love each other and fight for each other if necessary and be thrown in jail together if necessary, but together was the real secret of success; and he mentioned over again, together--together. He said we've got to decide whether we're coming together with the Negro and the Jew or whether we're coming together with the white folks. He said if we don't come together, we're lost, everlastingly lost. He said there was a fight before when the people in the north took over, but he said this battle that we're fighting today is the last battle that the white people will ever fight and lose, for if they lose this battle, they're lost. He said we've gone down and we've gone under for the last time and still be able to come up.

He said that when he said fight for the white race, he didn't mean hate others, but he said you're fighting for the blood that runs in your veins and for those of your own kind and that it's his understanding that this is the true religion and that this is the way it was intended for you to be,

to fight for those of your own kind. He said that anything that God has made, God has planted an instinct in it, and it's only a God-given instinct to fight for people of your own kind. He said that when you're fighting for those of your own kind, that's according to God's law, that's not the law of any lunatic but that's the law of God. He then stated that you'll find no argument for integration in the Bible. He said he would defy any of these integrationists to find any authority anywhere where God had made anything that was supposed to mate with other than those of its own kind. He further stated that when you're out here fighting for those of your own kind, don't let the other side try to convince you that they're fighting for God because they're not fighting for God, they're fighting to destroy what he has created. He continued in his comments by stating that this matter relating to race mixing and integration was started with the devil and was contrary to the principles of God. He said that in order for us to do anything about this situation we have got to be counter-revolutionary toward those people who are starting a revolution and we must do this if we intend to preserve the American way of life. He said that the Jews in this country have been carrying on a revolution for the last 30 or 35 years and it's a revolution that has been sanctioned by the higher authorities in our government. He said that the press, the television and the radio are all Jew controlled. He said we are supposed to be looked on as lunatics, but the idea that we so-called lunatics look on is the idea that this America was actually founded on. He said that the founders of America were not concerned with the negro and the negro is not considered a part of our people or a part of our country, and just because the negro has now come and become a part of our midst does not mean that the negro is part of our people or a part of us. He said the negro was declared a citizen of the United States under the Fourteenth Amendment and although the Fourteenth Amendment was unconstitutional, it is an Amendment which declares the negro a citizen. But even so, being a citizen of a state does not make that citizen necessarily a part of the people. He said you must be assimilated by people or you must be born unto it in order to become a part of the people. He said that whoever says the

negro and the white people are one in the same people speaks a lie. He said they are not, they're different, they're different people. He said that when that great document, the Declaration of Independence, was written and stated that all men are born free and equal, they meant that all people through their inheritance were free and equal. He said that they did not mean that all the people of all the world were born equal. If that had been the case, they would have opened the United States up and let all of the people of the world freely come into the United States. He said that moreover they did not include slaves because practically all of those people who signed the Declaration of Independence at that time themselves owned slaves. They said whatever we must do, we must hold firm to the idea of being one people. He continued that that's no hate of anybody else just because we don't want to mix our blood with a negro, but it is just human nature. He cited that the example of going out into the woods and seeing the beauty created by nature where you observe an oak tree and then you observe a different type of tree. He said that if the idea of all being one were true, then there would be no oak tree, there would be no other type of tree. A tree would just be identified as a tree. There would be neither oak, elm, pine, or ash. He said that that's the way God intended it to be, and if we come along and try to mix what God intended to be separated, we will pay an everlasting penalty for this fault. The speaker then stopped and asked if he had talked too long, and an unknown male voice answered from the audience, saying no, we could listen to you talk all night. He continued by saying that the thing we have got to do is to go out and find a group in every community that we can find of white people who agree with us on our fundamental principles. He said if the people we find don't agree, then "vote them down" and kick them out.

He stated that the politician in the south is not too much worried regarding the negro, that what he is really worried about is the fear that the white man may organize and

get together and he has a fear of five, ten or fifteen thousand white men coming to the politician and saying to him, listen here you've got to straighten up if you're going to represent us. That's what he is actually afraid of. He said for years we white people have been pushed around, kicked around, pushed around. He said that down through the years the south has always supported the Democratic Party. He said that this dates back many years ago when the Christian Knights rose up to save the south from the negro, and he said that if that had not happened then there wouldn't be any white people here today in the south or the north as a white race. He said be that as it may, it was down through the instrumentality of the Democratic Party. He said that it was the Democratic Party that had saved the south from the carpetbaggers and scallawags and since the Democratic Party had been loyal to the white race, the south has remained loyal to the Democratic Party. He said, however, that since the days of FRANKLIN DELANO ROOSEVELT, the Democratic Party has sold out every principle that the white man and Democratic Party has ever believed in. So he said today the south will not go along with the Democratic Party on its present basis. He said that the south will not go along with a party that is trying to mongrelize the races, and the south will not go along with the party that's trying to feed the south the crumbs off of the table. He said we want to sit at that table and be a part of the people sitting there. We are tired of being knocked around. He said with this election that's coming up this year you're going to hear a lot of talk about rebellion in the south. He said it will be men like ORVILLE FAUBUS that will carry the ballot in that coming election. Loud round of applause. He said that whoever it is Gentile, Jew, Protestant, or Catholic, if he doesn't agree with our American way of life then we're going to fight. He said you've got to point out the clean cut faces, and he said you've got to decide if you're going to stand up and be white or if you're going to be black. Its just that simple. You're on one side or you're on the other. He said that this fight that's coming up will be the survival of the race and there's no such thing as a middle ground. You either fight with us or you fight against us. That's the way its got to be.

He said we can win and the reason we haven't won before is we haven't even tried to win before and we can win because we represent the great overwhelming majority of people in this nation. He said its not only a majority but its the most intelligent majority, its the most liberal and its the most energy filled majority and by standing together were bound to win. He said that all thats on the other side is a few Jews and a few Communists. He then urged those present to get on the telephone and indiscriminately call a hundred of those people listed in the telephone directory. He said talk to them about these racial issues and you will find that they are on your side. He said that he has done the same thing himself and the majority of the down to earth people are on our side. He then explained that there are only a small number of people who actually vote anyway and he cited as example that in Atlanta, Georgia, there were only 18 per cent of the people that voted. He says that in a place like Atlanta 2000 votes would swing most any election. He said that any small group, 10, 30, 40, 100, or a 1000 could do miracles if they just had sincerity in their hearts. He emphasized that this race of ours is not going down it is going to live. He asked if he was right and he got a loud round of applause. He then called attention to the Jews being a small minority, and said that most of them when they came over here couldn't even speak our language but in a short time they had gotten a hold of all of the money, all of the propaganda, and practically everything is in their hands and how did they do it. They worked together, thats their motto. They said thats got to be our motto, work together, and working together we will win. He then urged everybody to pick out white people and trade with them. If a man runs a grocery store look him up and trade with him. If he runs a clothing store, trade with him. If a white man runs a real estate agency, trade with him. Stand together like the Jews stand together and like the negroes stand together, and we will win. He stated that he feels that we can win and the purpose of his coming there today was to try and spread a little cheer into their hearts and if after hearing him speak they feel that they can win then he is satisfied he has accomplished what he came to the convention to accomplish. With that comment he

concluded his speech and an unknown person spoke in the background stating that he was one of the greatest public speakers that had appeared there today and he urged the crowd to give him another hand. So again he was given a long ovation by the convention.

The next person introduced was F. ALLEN MANN of Hinsdale, Illinois. Some other person spoke up, however, and said that Mr. MANN had stepped out to his car and would be right back. Since MANN was not immediately in the hall, the unknown speaker then stated that we would hear from J. B. STONER.

J. B. STONER

J. B. STONER began his talk by addressing the group as fellow white citizens of American and informed them immediately that he heard some news on the radio on his way to the convention from Dayton. He said he heard news that the greatest traitor in the history is now dead. He then announced that according to the radio, GENE SMITH, Chief of Police, Little Rock, Arkansas, had just shot his wife and then killed himself. With the making of this announcement, the convention began cheering and clapping and applauding and cheering and screaming at the top of their voices. He said that the struggle in Little Rock, Arkansas, is still going on and that that struggle is still not yet decided but if it continues like its going on eventually there will once again be segregation in Little Rock. STONER then said that he himself had been working for years trying to arouse the white people with very little success, but he was happy to say that today the NAACP was doing more to arouse the white people than he had been able to do by himself in quite some time. He said that the Jews are the ones that have started all of this segregation business by promising the negro everything. He said that the Jews have told the negro that they are entitled to everything so they should be able to eat with the white people, go into restaurants with the white people and have social relations and intermarriage with white people. He said the Jews have got the negroes so convinced that the negroes are tired of waiting and its going to be hard to convince the negro now that the Jew didn't really mean it when he told him he could have everything.

STONER continued by stating that every white man and his wife and his daughter and his son and all of his children, whether they want to or not, now will have to stand up and be with us. He said that there are some practical matters in regards to politics and although everybody is constantly talking about the south, he thinks that Ohio is a good place for the party to hold their convention. He said it is good for the people in Dayton to realize that they don't have much more freedom than the people in his county. He said about the only difference is that over here they try to keep you from having a meeting and over there they try to arrest you before you hold a meeting. He said that if nothing occurs at this convention today, other than a nomination of the best governor we have today, Orville Faubus, and Admiral Cromlin, then the purpose will be well achieved. He said this fact in itself will result in putting the National States Rights Party on the ballot in many states. He said that whether we win the election or not we have still come a long ways and that all we have to do is pull so many votes, that if one of the other parties don't have a majority, then we will hold the balance of power, and instead of running out to the jew bloc vote or the nigger bloc vote, the politicians will then have to run after the white bloc vote. He said that his answer to these people who say we can't win and he doesn't believe that we can't win. He said if we establish ourselves as a white voting bloc, then the Democrats and Republicans will have to come to us to try and get our vote, and if they appeal to us they'll have to support what we believe in and they'll have to put our beliefs as a plank in their platform, and they've got to do this in order to appeal to our people to get votes from us and if they put in a plank of this kind to get votes away from us then we have still accomplished our purpose. He said, therefore, if the jews and niggers can form blocs to dominate the two major parties or rather the one major party with two faces or two fronts, then we can have a bloc of control too. He said, however, that that is just one objective. He said our next objective is that we need a new political party and that if we can't win this time maybe we can make enough showing so we can win next time. He said he knew one politician who ran for office three times before he could get elected but the third time he was elected and he said if we can win in two or three elections, then we will have accomplished our purpose.

CI 105-1139

He said if any of you people have any trouble getting your National States Rights Party on the ballot in your state find out all you can about the election laws of that state and let me know and I'll help you get it on the ballot. He said if we can make a strong showing and win this election the jew is on his way out and if the jew is on the way out, the nigger will have to go with him. He said I don't hate the jews, the nigger, or anybody else but I do believe in self preservation. He said the jews plan to destroy our race and if they destroy our race they destroy our civilization and all those with it. He said that he was opposed to mongrelizing the races because Christianity could only survive among the white race and that in North Africa when they had attempted to mongrelize the races, Christianity had failed. He said history also records that every civilization that ever tried to mix up with the niggers went back to the jungles or worse. He said it isn't that the nigger is so aggressive but he said that any time nigger blood gets into other blood it destroys the race and he said the jews were trying to destroy the white race by pumping nigger blood into our race. He stated that eventually it will get to the place that a man marries a woman and he won't know whether he is going to have a white child or nigger child, and if we continue we will get to the point that we got a mongrelized race that they've got down in Cuba. He then said that regardless of how they felt about whether they could win the election, he said that if they went with Governor Faubus they would get plenty of votes.

Some people have criticized me--I am not so angry with criticism because I don't feel called upon to answer to criticism. This is just to let you know more about the true situation. Some people have criticized me because I have attacked that master of deceit, J. EDGAR HOOVER, and his race mixing FBI. (Applause) Someone said even though he says some things in his book that weren't so, on the whole it's a great book. On the whole the great purpose of this book was to win the confidence of the reader just like any confidence man or con man trying to beat you out of your rights and your money. Win your confidence and then tell you that the ADL, the American Jewish Congress, the American Jewish Committee, and NACP are wonderful American organizations. They make you believe such lies as that. It's a fraud, that whole book, "Masters of Deceit". The editor in Sulphur Springs, Arkansas, in a weekly publication known as the Sulphur Springs Beacon, I think it is. The publication that has been fighting Communism for years and years. They fought Communists for years and years and you never heard one single word from J. EDGAR HOOVER, while the FBI was pouring droves of FBI Agents into Little Rock in 1956 to persecute Governor FAUBUS and all the other white segregationists there, and they even kidnapped high school girls to carry them down for hour long questioning (unintelligible) without consent of their parents or without any lawyers being present. J. EDGAR HOOVER wrote two letters to the editor of the Sulphur Springs Beacon. He praised him for his stand against Communism, and if that wasn't a smoke screen, I don't know what that was. He praised the editor of the Sulphur Springs Beacon in Sulphur Springs, Arkansas, for being against Communism so he could keep that editor from saying that J. EDGAR HOOVER was choking and the FBI were choking Communist race mixing down the throats of the white people of Little Rock. (Applause) J. EDGAR HOOVER is the biggest fraud ever perpetrated on the American people. He's a criminal (applause), and I'll not only say it here, I'll say it anywhere else. I'll put it in writing and spread it all over the country, and I'll stand by it. He's a criminal; he's a professional trained liar. (Applause) The FBI comes around you and persecutes you and you can go get your Congressman, and he will then ask J. EDGAR HOOVER about it. J. EDGAR HOOVER every time will deny

he's done anything wrong and that any of his agents have done anything wrong regardless of the crimes that they have committed, and I just don't go for such as that. In fact I've seen some official FBI stationery recently, at least it was published by the FBI, in which J. EDGAR HOOVER tells people that they should be against what we believe in, such a thing as (voting?, registering? --- unintelligible) and things like that -- going to be in the next Thunderbolt. (Applause) Everyone knows what Jewish led NACP stands for--race mixing. J. EDGAR HOOVER says the NACP is a great organization. So, what more does anybody need to know about J. EDGAR HOOVER except that he's an enemy. I was talking to AMOS GUTHRIDGE (PH), most prominent segregation lawyer in Little Rock, Arkansas, ----- (unintelligible) and even down in Florida? (unintelligible). He told me the FBI was running the Little Rock Police Department, which I already knew, and that there wouldn't even be any integration in Little Rock if it weren't for the FBI. The Jew Communists are using the FBI to force integration on the south. I don't care how nice some FBI agent is. J. EDGAR HOOVER might be the greatest American in history. He might be a saint even before he is dead. Some people want to cannonize him now. (Laughter) Some of them think he is greater than GEORGE WASHINGTON, PATRICK HENRY, and all, but I don't care what they think about it. The facts about it are the facts-----he may be wonderful and all. He might be as wonderful as a nice new brand shining revolver, but I don't care; if a man's going to kill me, I'm not going to stand there and say what a nice pretty revolver you have. That's the same way J. EDGAR HOOVER. The Jew Communists are using him against the white race of America just like a criminal gangster using a gun against a man he's holding up, and I'm not going to praise an instrument even if it's wonderful even though I think it's quite rotten. The FBI uses perjury---they suborn perjury---against innocent people like GEORGE BRIGHT in Atlanta. They went to see Mr. EMERY BURKE (PH), who was speaking here a minute ago, in Atlanta. Well, before they went to him, they went to see one of his friends. The FBI Agent named ROBEY (PH) told him that he would see that he got all of the reward in the south (or himself--unintelligible) which totaled well around \$112,000 if he would cooperate with him in sending BURKE to the penitentiary and he also. ---- (unintelligible)

The man refused to go along with the FBI. The same FBI Agents _____ (unintelligible) then went to BURKE and told him they'd see that he got all the reward money if he'd testify against me. Now if that's not subornation of perjury, I don't know what is. Whenever the FBI put that VIRGINIA DAVIS MOORE (PH) on the stand against GEORGE BRIGHT in Atlanta, they're guilty of subornation of perjury, and that's felony. Well, the FBI ain't guilty of just a mere misdemeanor, they're a bunch of felons running around loose. JOHN DILLINGER and his gang were an honorable bunch of gentlemen compared against J. EDGAR HOOVER (Applause). Some people say, well, J. EDGAR just has to take orders from the Attorney General. I say to you if the Attorney General, Jews, and Communists find out the great FBI effectiveness is destroyed, they'll quit using it against us. Everyone of these civil rights bills in Congress violate the rights of the white people not only in the south but all over America, were put in this Congress through the influence of Jew Congress and everyone of them would strengthen the power of the FBI. If the Communists are against the FBI, why do they want to fight the civil rights laws. It would set up in effect a police state in America operated by the FBI. Who's going to strengthen their own enemies, nobody. I don't want to take up too much time on the FBI and I hate to have to waste a single word about them. They're no good, and if it weren't (hesitation and applause) if it wasn't for those gangsters, we would not have any integration in the south. (Applause)

STONER continued his speech by offering critical comments in regard to the Rockefeller Foundation and the Ford Foundation. He also mentioned that a Jew professor, named BOAZ (phonetic) at Columbia University had taught a great deal at that university leading to integration, and he said that many of the students he had taught had carried the integration idea with them from Columbia University. He said that BOAZ even admitted that the negro was an inferior race to the white, but he still thought they ought to mix. He said if it wasn't for the jew we wouldn't have any race mixing nor would we have any communism. He said that KHRUSCHEV was married to a jew, and that most of his children were jew children. He said they have a jewish daughter-in-law and a jewish grandson. STONER stated though as far as he was concerned he was against all jews.

STONER then stated that he had been down at the Odd Fellows Hall giving directions to the convention and while he was there a man who met the description of the BILL PETERS of CBS-TV came by. He said the CBS-TV was trying to smear job on the National States Rights Party. He said we finally got rid of BILL PETERS and we got out here without him. He said CBS-TV and all the other newspapers and radio stations are controlled by jews and they weren't willing to put our side on their programs.

STONER then said that I want to tell you in closing be sure and get on the ballot. He said now we can't help it if the jew doesn't like us, but he said when the jew gets up in the morning he goes into the bathroom and shaves. When he looks in the mirror he sees such a horrible sight that he feels bad the rest of the day. So then he takes that spite out on us. So he said let's do all we can to get elected so we'll all get out and vote for Governor Orville Faubus and Admiral John Cromlin.

The next speaker introduced was AL MANN of Hinsdale, Illinois.

ALLEN MANN

MANN began his speech by stating that the main thing that we have to do is to get our word to the people

and since we can't get them through the press we have to get them our own way. He began by pointing out the tremendous amount of literature they could publish each year if each of them would only mail literature out to 100 people. He said if they could get 1000 people to mail out literature think how many people they could reach under those circumstances and if they could get 5000 people working for them they could reach a vast majority of people in the United States, in a short period of time. He suggested that everybody could get all the names they wanted from telephone directories and even if they never heard from the people that they sent material to it wouldn't make any difference; at least they would be sending it out and getting it circulated. He said that if everybody would take thirty minutes of his time each week to mail out this literature it would reach a tremendous amount of people. He said that we tried this in Chicago and in a very short time we had many people working for us, sending out this literature. He said that he had two leaflets with him and he would like to get started right away tonight, and if everybody was agreeable he would like to give everybody 33 of each of those leaflets to mail out. MANN then continued by mentioning some of the books that he had in his possession and offered some description of the books. He mentioned that one of them had a thorough discussion of the anti-Christian viewpoint. He said that one book he had covers all jewish interests from the very beginning up to today. The book that he referred to sold for \$4.00 for the paperback and \$6.00 for the hard back cover. MANN also commented that he would like to see anyone at the convention who was there from Illinois and stated that if you know anyone from Illinois he would appreciate it if you would write to him and have him get in touch with him. After telling those in attendance that he would like to see and talk to as many as possible he then concluded his comments.

FRANK RYAN

The next speaker introduced himself by saying my name is FRANK RYAN. He then referred to the gentleman who had just spoken from the State of Illinois and told those present that he wanted to tell them about what was happening in the City of Chicago today. He then spoke in an unintelligible fashion making reference to the City Hall of Chicago, Dave County, Florida, the Communists fronts in

Washington, D. C., and then again referred to the City of Chicago. He said that he use to work in the City of Chicago in the wintertime. He said that he worked for the Interstate Detective Agency as a detective and he said that he was stationed out on the southside. He made reference to a white housing project which a negro family moved into. He said that they couldn't move in in the daytime; they had to move in at night. He said however there was complete confusion in a very short time for 20 blocks up and down both sides of the street with cars turned over and all types of confusion going on. At this point in his talk, an unknown male spoke up stating, Mr. RYAN, I hate to interrupt you but the hall will have to be given up as there is a dance here tonight and there is a band outside that is ready to come in and start setting up now. So with this interruption, Mr. RYAN concluded his comments.

Another unknown speaker stated that he would like to interrupt and at this point introduce a resolution which he felt was the basis of foundation for the National States Rights Party. He then stated "Be it resolved that the National States Rights Party is a Christian organization, believing in God, the leader of the universe, and all that is within it, and the Divinity, Virgin Birth, and Resurrection, of our Lord, Jesus Christ." This speaker then stated that he would like to have that made as a motion and someone immediately said I second the motion. There was a vote and the convention, all shouted, aye.

Following the adoption of the resolution, the convention came to a conclusion and the group disbanded.
